SHODHCHAKRA

Shodh-Chakra is an initiative of Information and Library Network (INFLIBNET) Centre under the guidance of University Grants Commission (UGC) to help the academic community during their research life cycle. Shodh-Chakra provides a unique space to the researcher, guide/supervisor and university to manage the research lifecycle of a research scholar. This will work as a digital workspace wherein researchers can collect, store, organize and cite their research work. The Shodh-Chakra would help researchers to create their profile and manage their preferences. The process of using the portal starts with signing an MoU between University and INFLIBNET Centre. The university/institute has to provide valid information of the researcher and supervisor. Further, researcher can login into system and avail the features of Shodh-Chakra. The system will generate login credentials to researchers, supervisors and universities.
